

The Crusoe Crew Solutions

You'll find the solutions to The Crusoe Crew here in this document.

They are presented in order of Gabby (2), Neta (3), Kik (4), and Sarah (5). Each member of the Crew is on their own page so if you want to avoid spoilers you can just view or print that page (noted above).

Some puzzles can only be solved by certain family members but are still viewable in their siblings' books. In those cases, the required sibling has been noted.

Good luck Crusoe family! The puzzles found here can be incredibly trying but there's more than ample rewards if you're successful.

GABBY

P9 - The answer is one. The speaker who is on their way to the island is the only one going to the island.

P11 - The highlighted letter show you 93 is the answer

P14 - The key has 8 spokes. Turn to 8.

P20 - If you turn the book sideways you can see the number 120 is the solution to the lock.

P34 - GIL is the answer giving you 78. 206 shows you why.

P47 -

- Chest 1 is 8 as 8 is the only number that doesn't repeat in the clusters
- If you rotate the graphics as if they spun you find they make a 203.
- Twin Tea Nine makes 29.

P50 - If you remove the 3s from the book's writing (per panel 70) it gives you a 108.

P60 - If you put the events in order you find that they give you 123. The King sits on his throne (1). The guards poison his cup (2). And makes a toast (3). Resulting in his death.

P62 - The left squiggles in Gabby's book show 96. If you go to 96 it highlights the birds showing you 0027 (27) is the answer.

P71 - 127 is the answer to the riddle and meets all the criteria.

P73 - There's a wall with a 51 on it hidden on the left.

P86 - Panel 58 shows you which numbers to use. ($13 + 14 + 8 + 9 + 7 + 17$) 68 is the answer and gets you a valuable key.

P95 - If you try the notes you find the piano is out of tune in 39 because there's treasure inside it.

P103 - Gabby can see the code in 164 and the answer is 134.

P110 - The key (68) gives you 478. If you subtract 283 you get 195. Otherwise you can line up the shapes and add them all together.

P130 - Once again the Eagle key is 478 - 394 is 84. P133 - Add the panels matching the panels with a red mark together to get 175. ($19 + 23 + 14 + 34 + 19 + 66$).

P135 - Overlapping the etchings gets you 167 or 184. The bottom paper is a clue to another puzzle.

P146 - 113 is the solution.

P148 - Solution is 187 based on hidden numbers

P159 - The answer is Silence. If you spell it using the numbers on the wall you get 151.

P162 - The answer is 178.

P170 - Count the colored balls based on the paper. (Blue 1, Red 7, Yellow 8)

P174 - The correct key is 183 which matches the shape.

P180 - 52 is correct. If you compare the books in 98 to the books in 180 you'll note some books are different. If you note the number on each of those different books you'll see that they add up to 52. You get the clue to do this from the "note the differences" hint above the bookcase.

P191 - The solution is 145 which also explains the problem.

P194 - The art in 131 shows you what is in each chest.

P197 - The answer is 142 or 167 depending on how you read the overlay.

P198 - The answer is 127.

P205 - Great Whites don't lay eggs.

NETA

P9 - The answer is one. The speaker who is on their way to the island is the only one going to the island.

P14 - The key has 8 spokes. Turn to 8.

P20 - If you turn the book sideways you can see the number 120 is the solution to the lock.

P34 - GIL is the answer giving you 78.

P47 -

- Chest 1 is 8 as 8 is the only number that doesn't repeat in the clusters
- If you rotate the graphics as if they spun you find they make a 203.
- Twin Tea Nine makes 29.

P50 - If you remove the 3s from the book's writing (per panel 70) it gives you a 108.

P60 - If you put the events in order you find that they give you 123. The King sits on his throne (1). The guards poison his cup (2). And makes a toast (3). Resulting in his death.

P62 - The left squiggles in Gabby's book show 96. If you go to 96 it highlights the birds showing you 0027 (27) is the answer.

P73 - There's a wall with a 51 on it hidden on the left.

P86 - Panel 58 shows you which numbers to use. $(13 + 14 + 8 + 9 + 7 + 17)$ 68 is the answer and gets you a valuable key.

P103 - Gabby can see the code in 164 and the answer is 134.

P105 - Connect the numbers in order like a connect the dots to get 12.

P110 - The key (68) gives you 478. If you subtract 283 you get 195. Otherwise you can line up the shapes and add them all together.

P130 - Once again the Eagle key is 478 - 394 is 84.

P135 - Overlapping the etchings gets you 167 or 184. The bottom paper is a clue to another puzzle.

P139 - Gabby has the answer.

P146 - 113 is the solution.

P148 - Solution is 187 based on hidden numbers that Gabby can see all of.

P159 - The answer is Silence. If you spell it using the numbers on the wall you get 151.

P162 - The answer is 178.

P170 - Count the colored balls based on the paper. (Blue 1, Red 7, Yellow 8)

P171 - First you have to solve for the colors with a question mark. Red + yellow = Orange (18). Yellow + Blue = Green (26). If you then add every number together you get the answer (79).

P174 - The correct key is 183 which matches the shape.

P180 - 52 is correct. If you compare the books in 98 to the books in 180 you'll note some books are different. If you note the number on each of those different books you'll see that they add up to 52. You get the clue to do this from the "note the differences" hint above the bookcase.

P194 - The art in 131 shows you what is in each chest.

P197 - The answer is 142 or 167 depending on how you read the overlay.

P198 - The answer is 127.

P205 - Great Whites don't lay eggs.

P206 - The walls in 87 show you ZPO giving you 41.

KIK

P9 - The answer is one. The speaker who is on their way to the island is the only one going to the island.

P14 - The key has 8 spokes. Turn to 8.

P20 - If you turn the book sideways you can see the number 120 is the solution to the lock.

P34 - GIL is the answer giving you 78.

P47 -

- Chest 1 is 8 as 8 is the only number that doesn't repeat in the clusters
- If you rotate the graphics as if they spun you find they make a 203.
- Twin Tea Nine makes 29.

P50 - If you remove the 3s from the book's writing (per panel 70) it gives you a 108.

P60 - If you put the events in order you find that they give you 123. The King sits on his throne (1). The guards poison his cup (2). And makes a toast (3). Resulting in his death.

P62 - The left squiggles in Gabby's book show 96. If you go to 96 it highlights the birds showing you 0027 (27) is the answer.

P73 - There's a wall with a 51 on it hidden on the left.

P86 - Panel 58 shows you which numbers to use. $(13 + 14 + 8 + 9 + 7 + 17)$ 68 is the answer and gets you a valuable key.

P103 - Gabby can see the code in 164 and the answer is 134.

P110 - The key (68) gives you 478. If you subtract 283 you get 195. Otherwise you can line up the shapes and add them all together.

P130 - Once again the Eagle key is 478 - 394 is 84.

P135 - Overlapping the etchings gets you 167 or 184. The bottom paper is a clue to another puzzle.

P139 - Gabby has the answer.

P146 - 113 is the solution.

P148 - Solution is 187 based on hidden numbers that Gabby can see all of.

P159 - The answer is Silence. If you spell it using the numbers on the wall you get 151.

P162 - The answer is 178.

P170 - Count the colored balls based on the paper. (Blue 1, Red 7, Yellow 8)

P174 - The correct key is 183 which matches the shape.

P175 - The note in 171 gives you the key to the symbols on the cane. (149)

P194 - The art in 131 shows you what is in each chest.

P197 - The answer is 142 or 167 depending on how you read the overlay.

P198 - The answer is 127.

P200 - Have your siblings move the pieces as described.

P205 - Great Whites don't lay eggs.

SARAH

P9 - The answer is one. The speaker who is on their way to the island is the only one going to the island.

P14 - The key has 8 spokes. Turn to 8.

P20 - If you turn the book sideways you can see the number 120 is the solution to the lock.

P34 - GIL is the answer giving you 78.

P47 -

- Chest 1 is 8 as 8 is the only number that doesn't repeat in the clusters
- If you rotate the graphics as if they spun you find they make a 203.
- Twin Tea Nine makes 29.

P50 - If you remove the 3s from the book's writing (per panel 70) it gives you a 108.

P60 - If you put the events in order you find that they give you 123. The King sits on his throne (1). The guards poison his cup (2). And makes a toast (3). Resulting in his death.

P62 - The left squiggles in Gabby's book show 96. If you go to 96 it highlights the birds showing you 0027 (27) is the answer.

P73 - There's a wall with a 51 on it hidden on the left.

P86 - Panel 58 shows you which numbers to use. $(13 + 14 + 8 + 9 + 7 + 17)$ 68 is the answer and gets you a valuable key.

P103 - Gabby can see the code in 164 and the answer is 134.

P110 - The key (68) gives you 478. If you subtract 283 you get 195. Otherwise you can line up the shapes and add them all together.

P130 - Once again the Eagle key is 478 - 394 is 84.

P135 - Overlapping the etchings gets you 167 or 184. The bottom paper is a clue to another puzzle.

P139 - Gabby has the answer.

P146 - 113 is the solution.

P148 - Solution is 187 based on hidden numbers that Gabby can see all of.

P159 - The answer is Silence. If you spell it using the numbers on the wall you get 151.

P162 - The answer is 178.

P170 - Count the colored balls based on the paper. (Blue 1, Red 7, Yellow 8)

P174 - The correct key is 183 which matches the shape.

P194 - The art in 131 shows you what is in each chest.

P197 - The answer is 142 or 167 depending on how you read the overlay.

P198 - The answer is 127.

P205 - Great Whites don't lay eggs.

P206 - If you arrange the shapes in a rectangle and add the numbers as instructed you get 164.
